If you have any of the following items and are no longer in need of them, please contact Mrs. Richard at <a href="mailto:courtney.richard@eips.ca">courtney.richard@eips.ca</a>. We will be unable to return them as they get quite damaged and worn in our many practices due to the nature of this project. With thanks for your consideration!

# MEASURING SUCCESS: COMPLETE THIS YEAR'S ALBERTA EDUCATION ASSURANCE SURVEY

Once again, Alberta Education is surveying teachers, students and families through its annual Alberta Education Assurance (AEA) Survey. The survey acts as an annual check-up on the province's education system. Every year, Alberta Education conducts the survey to gather information about the quality of education provided by Alberta schools and school authorities. The survey looks at various measures such as education quality, citizenship, family involvement, engagement levels, school climate and student wellness.

Throughout March, Grade 4 students and teachers at Westboro Elementary are completing the survey online at the school. Student participation is voluntary and completely anonymous. Students are assigned a random username and password to ensure survey responses aren't linked to any individual student. The survey doesn't take long to complete and is done within the school day during regular class time.

Additionally, parents and guardians of students in grades 4, 7 and 10 are also asked to take a survey, either online or by mail. Alberta Education will send families information about the survey directly. As with the student and teacher survey, it's anonymous and asks questions about your school experiences. If you have a child in grades 4, 7 or 10, we encourage you to participate. The survey deadline is March 25, 2022.

Results from the AEA Survey are provided to Elk Island Public Schools each spring. The Division then uses the data to inform its four-year education plan, school education plans and strategies for continuous improvement. Each fall, the results are also shared with EIPS families and school communities in the Division's Annual Education Results Report.
